Subject: May 16: Another Tire Crumb Site Visit in [Ex. 6 Personal Privacy (PP)] - Interested in attending?
Attachments: Upcoming Visit to tire crumb processing facility in [Ex. 6 Personal Privacy (PP)]

Hi John and Donna,

As you know from my email of April 26 (attached), a small group of us from EPA, CDC, and CPSC will be visiting the [Ex. 6 Personal Privacy (PP)] on May 12. Space is limited for that tour. However, we will be visiting a second processing facility [Ex. 6 Personal Privacy (PP)] on Monday, May 16 - [Ex. 6 Personal Privacy (PP)]. The facility can accommodate a larger group, so we would like to invite you and any of your staff to attend, if it is of interest. We expect to arrive at the facility at approximately 11:00am, and we expect the tour to conclude at approximately 1:00pm.

If you or any from your staff would like to join us for the May 16 tour of the [Ex. 6 Personal Privacy (PP)] please let us know by COB Tuesday, May 10.

As a reminder, the purpose of both visits is to support the *Federal Research Action Plan on the Use of Tire Crumb in Playing Fields and Playgrounds*. (see: www.epa.gov/tirecrumb). The tours will enable to the study researchers to observe and learn about the tire crumb manufacturing process and to provide an opportunity to ask questions about the source and variability of tires, processing technologies, and other variabilities in the manufacturing process.

We'd be happy talk with you more if you have any questions.

Thank you,

Nicole Villamizar
